From the Polaris Project 2013 Press Release with 2012 Statistics: "Finally, we are pleased to see a mention of the National Human Trafficking Resource Center hotline, operated by Polaris Project and partially funded by the U.S. Department of Health and Human Services. The hotline responded to nearly 21,000 calls in 2012, connected more than 2,300 survivors to services and support, and received credible tips of human trafficking in every state and the District of Columbia. In 2013, we are already seeing a 45% increase in call volume compared to 2012, along with increases in emails, web forms, and now text messages. This growth reinforces to us that the hotline is a highly effective way to identify and reach victims of human trafficking in the U.S. and connect them to the services they need to free themselves and rebuild their lives." **THE NUMBERS DON'T ADD UP!**
