### 262 Unmet Requests for Services

Many programs reported a critical shortage of funds and staff to assist victims in need of services, such as emergency shelter, housing, transportation, childcare, and legal representation. Of these unmet requests, 93 (35%) were from victims seeking emergency shelter or transitional housing.

Programs were unable to provide services for many reasons:

- 40% reported no available beds or funding for hotels.
- 32% reported not enough funding for needed programs and services.
- 28% reported not enough specialized services.
- 24% reported not enough staff.
- 12% reported limited funding for translators, bilingual staff, or accessible equipment.

### 84% of Programs Reported Higher Demand for Services

As communities continue to experience job loss and decreased community resources, 84% of programs reported a rise in demand for services, while at the same time 80% of programs reported a decrease in funding.
