

There must be 50 Ways to Leave Your Lover... Safe

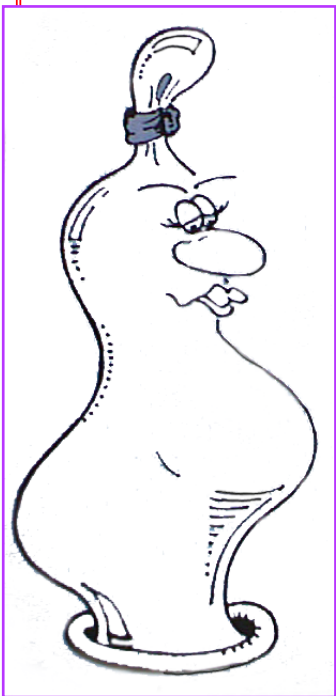

This poster is dedicated to the Condom Queen, Dr. Joycelyn Elders, Former US Surgeon General

Cover your stump before you hump
Wrap your wacker before you attack her
Don't be silly... cover your willie
Don't be a loner... cover your boner
When in doubt... shroud your spout

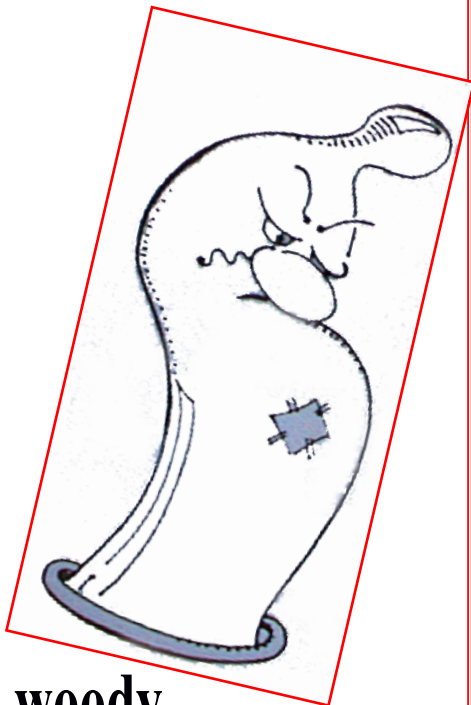

You can't go wrong if you shield your dong
If you're not going to sack it...go home and wack it

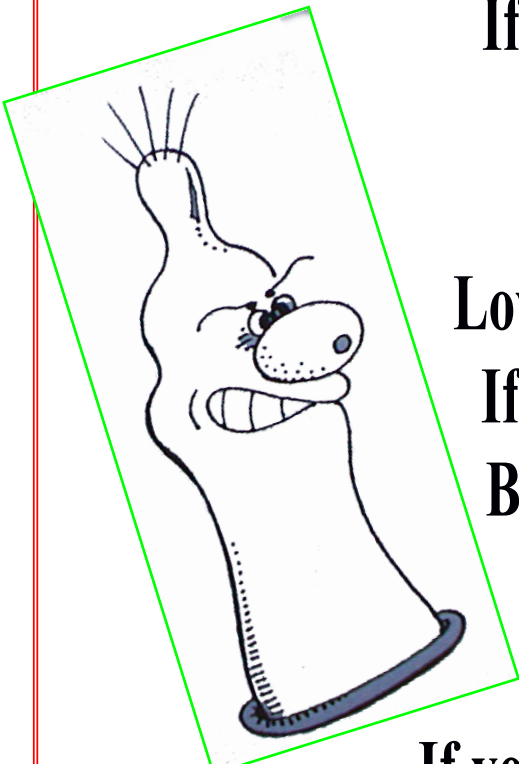

Don't you get funky... cover your monkey
If you slip between the thighs... be sure to condomize
If you're in heat... package your meat
Don't be a phony... wrap your bologna
Before you blast her... guard your bushmaster

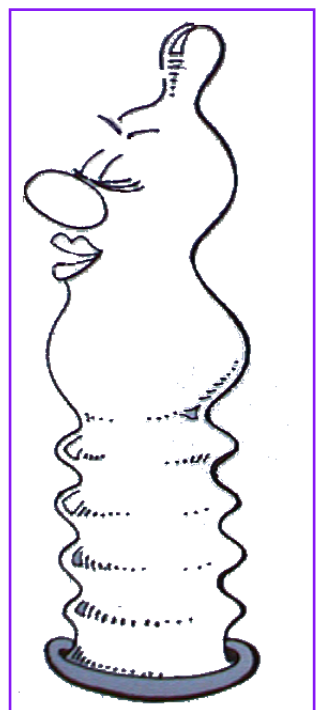

If you want to be cool cover your tool
Don't be a neener...cover your weiner

If you undress her venus... dress up that penis
Never deck her with an unwrapped pecker
No matter what size... gift wrap that prize
Love's always sweeter when you cover your peter
If he don't cover his bone.... send him on home
Before I give you my goodie, put a glove on your woody

If you're gonna dance, wrap that thing in your pants
If you unholster your gun... put one on or no fun!

If your toad goes in the hole, cover up your fishing pole
Sheath your joystick before you get sick

Before your Johnson goes inside, cover it with naugahyde
No matter how much he pay, if he don't put one on,
then send him away.....

REMEMBER: NO GLOVE ...NO LOVE!!
